rachel January 9, 2020 at 2:42 am. I don't know about this specific context, but GPT-2 definitely has an advantage over using markov chains in standard text-generation. For example, given enough training it can learn to summarize when prompted with TL;DR:. A markov chain could only ever parrot-back the beginnings of summaries that it has already seen, whereas GPT-2 can learn to recombine the ...
