Traditional aesthetics is often associated with the appreciation of art, Allen Carlson shows how much of our aesthetic experience does not encompass art but nature. He argues that knowledge of what it is we are appreciating is essential to having an appropriate aesthetic experience and that scientific understanding of nature can enhance our appreciation of it, rather than denigrate it.

Aesthetics and the Environment: The Appreciation of Nature ...  
Abstract. This article presents a framework for understanding aesthetic experience, with special reference to the natural environment. The framework entails 2 broad perspectives. First, from a functional perspective, aesthetic experiences are analyzed in terms of biological, sociocultural, and psychological systems of behavior; succinctly stated, objects are experienced aesthetically if

Arnold Berleant: Environmental Aesthetics

Environmental aesthetics is an emerging discipline that explores the meaning and influence of environmental perception and experience on human life. Arguing for the idea that environment is not merely a setting for people, but fully integrated and continuous with us, Arnold Berleant explores the aesthetic dimensions of the human-environment continuum in both theoretical terms and concrete situations.
