Red Eagle ' s Children presents the legal proceedings in an inheritance dispute that serves as an unexpected window on the intersection of two cultural and legal systems: Creek Indian and Euro-American. Case 1299: Weatherford vs. Weatherford et al. appeared in the Chancery Court of Mobile in 1846 when William " Red Eagle " Weatherford ' s son by the Indian woman Supalamy sued his half siblings fathered by Weatherford with two other Creek women, Polly Moniac and Mary Stiggins, for a greater share of Weatherford ' s estate. While the court recognized William Jr. as the son of William Sr., he nevertheless lost his petition for inheritance due to the lack of legal evidence concerning the marriage of his biological mother to William Sr. The case, which went to the Alabama Supreme Court in 1851, provides a record of an attempt to interrelate and, perhaps, manipulate differences in cultures as they played out within the ritualized, arcane world of antebellum Alabama jurisprudence. Although the case has value in the classic mold of salvage ethnography of Creek Indian culture, Red Eagle ' s Children, edited by J. Anthony Paredes and Judith Knight, shows that its more enduring value lies in being a source for historical ethnography—that is, for anthropological analyses of cultural dynamics of the past events that complement the narratives of professional historians. This book, entitled "How to Fly like an Eagle," is a motivational book written by the author in French, Spanish, and English to help people learn the techniques and to get the skills to help them to fly to the top like that bird of prey which is the eagle. In this book, the readers will learn how to overcome obstacles and to cultivate the fruit of persistence which is an essential factor in the process of transformation of desire into its monetary equivalent. The basis of persistence is the power of will. When this power and desire combine correctly, they form an irresistible combination, the perfect one to help you overcome your failures. There are four simple steps which lead to the habit of persistence. This does not require a large amount of intelligence or a special education, but time and minimal effort. The four steps are as follows: 1- A target set backed by a burning desire to achieve it. 2- A definite plan, expressed in continuous action. 3- A closed mind to any negative influence (including negative suggestions of relatives, friends and others). 4- A harmonious agreement with one or more persons, able to lead someone to go forward with the plan and with the goal. These four steps are essential for success in all areas of life. These are the steps with which you can control your economic destiny. These are the steps that lead to freedom and independence of thought, that convert dreams into reality. These are the steps that lead to the domination of fear, discouragement and indifference. I do not know the situation you are facing currently, maybe you are in a wheelchair, or in a hospital bed and without any hope of survival, maybe you're on the verge of divorce, or you are unable to complete your schooling or university, or find a job. You can now be crawling like a snake or you have broken wings preventing you from being able to fly like an eagle, but one thing is certain, regardless of your economic, family, health situation you can have a better life, develop your potential and fly as high as the eagle above any obstacles or constraints you are facing right now. Of course, this will be possible if you apply the principles to be taught in this book. I testify to you with all my heart that this book has the power to transform the lives of people from nothing to excellence, from the dust of the ground to the top of success. I promise you if you read it, and put the principles into practice, your life will be completely blessed!
