(Artist Transcriptions). This collection matches exactly the 11 songs from the original 1955 release by jazz pianist Erroll Garner of Concert by the Sea which achieved gold record status. It includes piano/keyboard transcriptions of: April in Paris * Autumn Leaves * Erroll's Theme * I'll Remember April * It's All Right with Me * Mambo Carmel * Red Top * Sultry Serenade (How Could You Do a Thing like That to Me) * Teach Me Tonight * They Can't Take That Away from Me * Where or When.

Time Out—Forever! In this shocking new sci-fi horror series, a Russian computer virus has jumped the species barrier and wiped out most of the adult population, leaving the world precariously in the hands of the next generation. In the wake of devastation, musical prodigy Oscar Fuentes is separated from his twin sister Cira. Stranded on opposite sides of the country, they're swept into rapidly evolving networks of teenage gangs. Can Oscar find his way back to Cira . . . or will they be lost to each other forever, in a dangerous makeshift civilization that is mercilessly replacing the past?

The coming of the Blood Moon will lead two Lycan packs into war, spur two rival brothers into conflict, and spark an act of vengeance so evil that its effects will be felt for generations. One woman stands at the center of it all... After years of waiting, the Blood Law is at last avenged. Lycan Alpha Lucien Mondragon takes revenge on his brother, Rafael. Lucien is poised to slay Rafael's life mate, the Lycan/Slayer half-breed Falon- but cannot complete the kill. For Falon's mystical powers and fiery nature awaken a heart Lucien thought long dead. Instead of ending her life, Lucien defiantly marks Falon as his own, tormenting his brother to insanity and spurning Rafael's blood thirst for his own revenge. Though terrified by the savage Lucien, Falon finds herself inexplicably drawn to his primal rage and strength by a desire she cannot resist. Torn between the true love she has for Rafael and the burning hunger she holds for Lucien, Falon knows that the will of her heart will lead her to her destined life mate. But it may also doom the Alpha brothers-and the Lycan race-to extinction...

Through Mandelbaum 's poetic artistry, this gloriously entertaining achievement of literature-classical myths filtered through the worldly and far from reverent sensibility of the Roman poet Ovid-is revealed anew. " [An] extraordinary translation...brilliant " (Booklist). With an Introduction by the Translator.

The definitive survey of the countries and territories of Western Europe, comprising expert analysis and commentary, up-to-date economic and socio-political data and extensive directory information. General Survey Essays by leading experts on the area cover issues of regional importance. Country Surveys Individual chapters on each country, comprising: an introductory survey, containing essays on the geography, history and economy of each country, including a chronology and map. an extensive statistical survey of economic and demographic indicators, including area and population, health and welfare, agriculture, forestry, fishing, mining, industry, finance, trade, transport, tourism, communications media and education. a comprehensive directory of names and contact details covering the most significant political and commercial institutions. Regional Information a directory of research institutes specializing in the region bibliographies of books and periodicals covering the region.

The approach of this book is to demonstrate how theoretical aspects, drawn from topics on airplane aerodynamics, aircraft structures, stability and control, propulsion, and compressible flows, can be applied to produce a new conceptual aircraft design. The book cites theoretical expressions wherever possible, but also stresses the interplay of different aspects of the design which often require compromises. KEY TOPICS: Coverage includes the conceptual design of an aircraft; iterative and repetitive calculations, and the different degrees of dependence of the aircraft characteristics on changing input conditions. MARKET: For professionals in the Aerospace Engineering field.

Writing about The Gaze of Orpheus, Geoffrey Hartman suggested that When we come to write the history of criticism for the 1940 to 1980 period, it will be found that Blanchot, together with Sartre, made French 'discourse' possible, both in its relentlessness and its acuity..This selection.is exemplary for its clearly translated and well-chosen excerpts from Blanchot's many influential books. Reading him now, and in this form, I feel once more the excitement of discovering Blanchot in the 1950s.

Train like the World Champions! Over the past few years, a new trend has become ever more prominent in the soccer world: passing often, fast, and including all players in the game. Combining this with their own personal style, we have seen teams reach new heights of success from FC Barcelona to Bayern Munich and Borussia Dortmund and, most recently, the German National Team at the 2014 World Cup in Brazil. But what does it take to learn this 'art' of passing? What are the methodological and technical requirements for becoming the new Schweinsteiger, Messi, or Neuer? In this book, the only of its kind, two German League certified coaches have created the ultimate guide to passing. Using the "Hyballa-te Poel-Passing-Puzzle," they present every type of pass there is in modern soccer, with lots of drills for each type. From the goalkeeper to the center forward, everyone can learn passing with these exercises.
