From the expert team behind IT'S PERFECTLY NORMAL and IT'S SO AMAZING! comes a book for younger children about their bodies — a resource that parents, teachers, librarians, health care providers, and clergy can use with ease and confidence. Young children are curious about almost everything, especially their bodies. And young children are not afraid to ask questions. What makes me a girl? What makes me a boy? Why are some parts of girls' and boys' bodies the same and why are some parts different? How was I made? Where do babies come from? Is it true that a stork brings babies to mommies and daddies? IT'S NOT THE STORK! helps answer these endless and perfectly normal questions that preschool, kindergarten, and early elementary school children ask about how they began. Through lively, comfortable language and sensitive, engaging artwork, Robie H. Harris and Michael Emberley address readers in a reassuring way, mindful of a child's healthy desire for straightforward information. Two irresistible cartoon characters, a curious bird and a squeamish bee, provide comic relief and give voice to the full range of emotions and reactions children may experience while learning about their amazing bodies. Vetted and approved by science, health, and child development experts, the information is up-to-date, age-appropriate, and scientifically accurate, and always aimed at helping kids feel proud, knowledgeable, and comfortable about their own bodies, about how they were born, and about the family they are part of.

Uses bird and bee cartoon characters to answer questions that younger children frequently ask about the human body.

“An outstanding book. . . . Meets the needs of those in-between or curious kids who are not ready, developmentally or emotionally, for It's Perfectly Normal.” —Booklist (starred review) How does a baby begin? What makes a baby male or female? How is a baby born? Children have plenty of questions about reproduction and babies—and about sex and sexuality, too. It's So Amazing! provides the answers—with fun, accurate, comic-book-style artwork and a clear, lively text that reflects the interests of children age seven and up in how things work, while giving them a healthy understanding of their bodies. Created by the author and illustrator of It's Perfectly Normal, this forthright and funny book has been newly updated for its fifteenth anniversary.

Introduces human sexuality, describes the changes brought about by puberty, and discusses sexual abuse, sexually transmitted diseases, AIDS, and pregnancy.

The trusted, New York Times best-selling author of It's Perfectly Normal presents the first in a charming and reassuring new picture book series for preschoolers that answers questions that many children ask about themselves and their friends in an entertaining and straightforward way.

A latest entry in the series that includes It's NOT the Stork! follows the adventures of young Gus and Nellie, who watch their mother's pregnancy and anticipate the arrival of a new sibling while learning engaging facts about how unborn babies develop.

A mother tells her child about its first day of life from the moment of birth through the end of the birth day.

An engaging introduction for very young children to the basic facts of life in a way that is gentle, age-appropriate and accessible. Child psychologist Dr. Jillian Roberts created the Just Enough series to help parents and caregivers approach difficult subjects with little ones. These primers offer a gentle and accessible starting point for conversations about important topics. Research shows that children are learning about sex at an increasingly young age and often from undesirable sources. The Q&A format, with questions posed in the child's voice and answers starting simply and becoming gradually more in-depth, allows the adult to guide the conversation to a natural and satisfying conclusion. Additional questions at the back of the book allow for further discussion. Where Do Babies Come From? is the first book in the Just Enough series. Other topics in the series include death, cultural diversity and separation or divorce.
