From multiple New York Times best selling author David Weber and #1 New York Times best selling author Timothy Zahn. NEW ENTRY IN BEST-SELLING SERIES. Book #2 in the Manticore Ascendant series, set in David Weber's Honorverse. Lieutenant Travis Long of the Royal Manticoran Navy is the sort of person who likes an orderly universe. One where people follow the rules. Unfortunately, he lives in the real universe. The good news is that Travis is one of those rare people who may like rules but has a talent for thinking outside them when everything starts coming apart. That talent has stood him $\frac{3}{4}$ and the Star Kingdom $\frac{3}{4}$ in good stead in the past, and it's one reason he's now a _mustang, Ó an ex-enlisted man who's been given a commission as a King's officer. The bad news is that two of the best ways of making enemies ever invented are insisting on enforcing the rules . . . and thinking outside them when other people don't. Travis learned that lesson the hard way as a young volunteer in basic training, and he knows that if he could just keep his head down, turn a blind eye to violations of the rules, and avoid stepping on senior officers' toes, he'd do just fine. But the one rule Travis Long absolutely can't break is the one that says an officer in the Royal Navy does his duty, whatever the consequences. At the moment, there are powerful forces in the young Star Kingdom of Manticore's Parliament which don't think they need him. For that matter, they're pretty sure they don't need the Royal Manticoran Navy, either. After all, what does a sleepy little single-system star nation on the outer edge of the explored galaxy need with a navy? Unhappily for them, the edge of the explored galaxy can be a far more dangerous place than they think it is. They're about to find out why they need the Navy . . . and how very, very fortunate they are that Travis Long is in it. At the

Scott Oden's epic novel *A Gathering of Ravens* is "satisfying...complex...and a pleasure to read" (Publishers Weekly, starred review). To the Danes, he is skraelingr; to the English, he is orcnéas; to the Irish, he is fomoraig. He is Corpse-maker and Life-quencher, the Bringer of Night, the Son of the Wolf and Brother of the Serpent. He is Grimnir, and he is the last of his kind—the last in a long line of monsters who have plagued humanity since the Elder Days. Drawn from his lair by a thirst for vengeance against the Dane who slew his brother, Grimnir emerges into a world that's changed. A new faith has arisen. The Old Ways are dying, and their followers retreating into the shadows; even still, Grimnir's vengeance cannot be denied. Taking a young Christian hostage to be his guide, Grimnir embarks on a journey that takes him from the hinterlands of Denmark, where the wisdom of the ancient dwarves has given way to madness, to the war-torn heart of southern England, where the spirits of the land make violence on one another. And thence to the green shores of Ireland and the Viking stronghold of Dubhlinn, where his enemy awaits. But, unless Grimnir can set aside his hatreds, his dream of retribution will come to nothing. For Dubhlinn is set to be the site of a reckoning—the Old Ways versus the New—and Grimnir, the last of his kind left to plague mankind, must choose: stand with the Christian King of Ireland and see his vengeance done or stand against him and see it slip away? Scott Oden's *A Gathering of Ravens* is a novel of vengeance, faith, and the power of myth.
