On the occasion of the 90th anniversary of Pininfarina, a marque synonymous with style and elegance applied to car design, Pininfarina is a book that surveys, for the first time, the entire output of the Turin coachbuilder, model by model. Produced in close collaboration with the company, it draws on invaluable photographic material accompanying brief contextualising texts. Tracing the history of Pininfarina from its origins to the present day entails reviewing some of the most iconic models in automotive history: from the numerous Ferraris bodied by the historic partner of the Maranello firm to cars

such as the Cisitalia 202, the Lancia Aurelia, the Alfa Romeo Duetto and 164, the Maserati GranTurismo through to the current models born under the aegis of the Indian firm Mahindra. The book also covers the numerous Pininfarina concept cars that have written glorious pages in the history of design, raising the bar every time in terms of the excellence of the car product.

Winner of the 2008 ETV Southern Lens Broadcast Award, Jonathan Green's *Seeking* is a moving film by critically acclaimed filmmaker Charles Allan Smith. It documents artist Jonathan Green and celebrates his unique vision of the struggle of Africans in the colonial and antebellum South prior to emancipation. He brings to life on canvas the African American ritual of seeking, creating and adapting lyrical brush strokes to display the restless tension in each image. Pulling from his own memories as a young man, Green journeys back through his ancestry to paint *Seeking* and honors the African American slaves that lived, died, and were buried at Clermont Cemetery on the grounds of Mepkin Abbey in South Carolina. A 2008 Charleston International Film Festival official selection, Jonathan Green's *Seeking* invites the audience to experience the American South through a visual and aural medium, suggesting that art cannot be confined to a page or canvas. Filled with the spiritual sounds of famed singer Marlena Smalls, Jonathan Green's *Seeking* commemorates the invaluable artistic contributions and sacrifices that African Americans made throughout American history. Approximately 30 minutes in length, this documentary explores the influence of historical art upon contemporary society through Green's *Seeking*.

For more than 120 years (1714–1837) Great Britain was linked to the German Electorate, later Kingdom, of Hanover through Personal Union. This made Britain a continental European state in many respects, and diluted her sense of insular apartness. The geopolitical focus of Britain was now as much on Germany, on the Elbe and the Weser as it was on the Channel or overseas. At the same time, the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate. This volume was the first systematically to explore the subject by a team of experts drawn from the UK, US and Germany. They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth- and early nineteenth-century Britain. Never before had the impact of the Hanoverian connection on British politics, monarchy and the public sphere, been so thoroughly investigated.
