The Oxford Handbook of Project Management presents and discusses leading ideas in the management of projects. Positioning project management as a domain much broader and more strategic than simply 'execution management', this Handbook draws on the insights of over 40 scholars to chart the development of the subject over the last 50 years or more as an area of increasing practical and academic interest. It suggests we could be entering an emerging 'third wave' of analysis and interpretation following its early technical and operational beginnings and the subsequent shift to a focus on projects and their management. Topics dealt with include: the historical evolution of the subject; its theoretical base; professionalism; business and societal context; strategy; organization; governance; innovation; overruns; risk; information management; procurement; relationships and trust; knowledge management; practice and teams. This handbook is of particular relevance to those interested in the research issues underlying project management.

A groundbreaking new look at American novelist Willa Cather's creative process What would Willa Cather's widely read and cherished novels have looked like if she had never met magazine editor and copywriter Edith Lewis? In this groundbreaking book on Cather's relationship with her life partner, author Melissa J. Homestead counters the established portrayal of Cather as a solitary genius and reassesses the role that Lewis, who has so far been rendered largely invisible by scholars, played in shaping Cather's work. Inviting Lewis to share the spotlight alongside this pivotal American writer, Homestead argues that Lewis was not just Cather's companion but also her close literary collaborator and editor. Drawing on an array of previously unpublished sources, Homestead skillfully reconstructs Cather and Lewis's life together, from their time in New York City to their travels in the American Southwest that formed the basis of the novels The Professor's House and Death Comes for the Archbishop. After Cather's death and in the midst of the Cold War panic over homosexuality, the story of her life with Edith Lewis could not be told, but by telling it now, Homestead offers a refreshing take on lesbian life in early twentieth-century America.

Lavishly illustrated with over 300 pictures, including more than 200 in full color, The Oxford History of Islam offers the most wide-ranging and authoritative account available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume Oxford Encyclopedia of the Modern Islamic World, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, The Oxford History of Islam offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.
