Social Identity Theory: Our Sense of Self Is Influenced by the Groups We Belong To. In our discussion of social comparisons, we have seen that who we compare ourselves to can affect how we feel about ourselves, for better or worse. Another social influence on our self-esteem is through our group memberships.

Sociological theories of the self attempt to explain how social processes such as socialization influence the development of the self. One of the most important sociological approaches to the self was developed by American sociologist George Herbert Mead. Mead conceptualizes the mind as the individual importation of the social process.

Our self-concept is important because it influences how we think, feel, and act in everyday organizational life. Understanding the self-concept is particularly important for managers because self-knowledge helps managers understand why they do the things they do and how their beliefs and behaviors affect themselves, others, and the organization—for better and worse.
